Dean's Message

Dear Students and Esteemed Readers,

The English program of the Department of Civil Engineering was established in the 1992–1993 Fall semester within the Faculty of Engineering at Near East University with 38 students. Following this, the Turkish program of the Department of Civil Engineering was launched in 2013, and the English program of the Department of Environmental Engineering began in 2018.

Considering recent conditions and opportunities, and with the aim of graduating students from a wider spectrum of disciplines, as well as recognizing the inevitable need for joint efforts between Civil and Environmental Engineering to address human-induced problems around the world, the Department of Environmental Engineering was established in 2018. In the same year, the Departments of Civil Engineering (both English and Turkish programs) and Environmental Engineering were separated from the Faculty of Engineering and, with the approval of the Higher Education Council (YÖK), began operating under the Faculty of Civil and Environmental Engineering.

The primary mission of our Faculty is to equip our students with the necessary skills and competencies to practice the engineering profession at the highest level. Accordingly, continuously improving all the opportunities and facilities required throughout the education process is among our foremost goals. As the Faculty of Civil and Environmental Engineering at Near East University, our objective is to graduate engineers who are innovative, distinctive, pioneering, idealistic, and committed to upholding ethical values under all circumstances. Within our Faculty, students are encouraged to enhance their knowledge through original research, to acquire the vision and expertise needed to contribute to social welfare, and to develop innovative and creative engineering solutions in line with today's pressing global agenda of sustainable development. With students coming from 42 different countries, our Faculty provides a contemporary education supported by a strong academic staff and modern laboratories.

Between 2017 and 2025, our Faculty has led international-scale scientific interaction by organizing more than 30 conferences, a tradition that continues successfully to this day. During this period, over 20 workshops, seminars, and webinars on topics such as climate change and sustainable development have been held, significantly contributing to ongoing global discussions in the field. Our Faculty possesses the capacity to organize as many as three international conferences in a single year. For instance, in 2019, conferences on Cyprus (April), Water (May), and Environment (October) were held, bringing together hundreds of distinguished scientists from dozens of countries and thereby strengthening the exchange of scientific knowledge. This record of success was reaffirmed through two major events organized online under ENCESU on 16–18 November 2024: the "Seventh International Conference on Natural Resources and Sustainable Environmental Management" and the "Fourth International Conference on Water Problems in Mediterranean Countries." These two major events brought together 49 universities from Northern Cyprus, Turkey, Libya, Iran, Malaysia, Indonesia, and India, with the support of 17 institutions and organizations, including TURKSOY and the Union of Turkish World Engineers and Architects. In this way, our Faculty continues to distinguish itself as a hub of international collaboration and academic exchange, making a lasting impact on the scientific community.

At our Faculty, not only is high-quality teaching offered, but also strong academic production at the international level is achieved. Our distinguished faculty members, coming from around the world, contribute to the scientific community by publishing articles in respected journals of publishers such as Springer, which are indexed in leading international databases such as Scopus. In doing so, our Faculty sustains a tradition that combines excellence in teaching with impactful scientific research.

We would be delighted to welcome you as part of Near East University and our Faculty, and we wish you a successful and productive academic year.

Prof. Dr. Hüseyin Gökçekuş
Dean of the Faculty of Civil and Environmental Engineering

About Us

Their diplomas are recognized by both YÖK (Council of Higher Education of Türkiye) and YÖDAK (Higher Education Planning, Evaluation, Accreditation and Coordination Council of TRNC). The undergraduate and graduate programs include accredited programs by the international accreditation body ASIIN.

Educational opportunities in 5 different programs:

Civil Engineering (English)

Civil Engineering (Turkish)

Environmental Engineering (English)

Two-year Associate Degree in Construction Technology

Three-year Higher Technician Program in Construction and Technical Drawing Technologies

Opportunities for master's and doctoral studies in 6 departments:

Water and Hydraulics, Structures, Geotechnics, Materials, Transportation, and Construction Management.

Graduate programs offered by the Civil Engineering Department include Master's and PhD Programs in Construction Management and Strategy, a Non-Thesis Master's Program, and a Master's Program in Environmental Science and Engineering.

In line with the scientific studies and academic achievements of its faculty members, our Faculty was granted the "Best Faculty Award" among the 21 faculties of our University in 2018, and in 2020 it ranked as the second faculty with the highest number of scientific publications.

Hosting the Department of Civil Engineering, our Faculty, with the support of the Rectorate, has modernized and enhanced the functionality of the Structural and Soil Analysis Laboratory, thereby strengthening its research and application capacity. Within our Faculty, the "Earthquake Committee" (Prof. Dr. Hüseyin Gökçekeş, Asst. Prof. Dr. Mustafa Alas, MSc. Hüdaverdi Tozan, MSc. Bekir Fırıncioğlu, MSc. Omar Ahmad) has prepared a comprehensive report entitled "Analysis of the Current Situation and Performance Evaluation of the Structures Belonging to the Near East Formation" through meticulous field and office studies, and has also begun to provide services in response to external requests.

In addition, the necessary work for the accreditation of our Structural and Soil Analysis Laboratory by TÜRKAK is being carried out without interruption. Beyond its educational activities, our Faculty continues to contribute to both its region and its country through scientific research and social responsibility projects.

This is a relay race, and the goal is to elevate our university to the position it truly deserves in the field of higher education worldwide through our achievements.

Faculty Organization Chart

Why Faculty of Civil and Environmental Engineering?

The Faculty of Civil and Environmental Engineering, with its expert and experienced academic staff, provides you, our esteemed students, with a strong academic and professional foundation by offering continuously updated educational programs in line with the technological and scientific requirements of the era.

The Civil Engineering and Environmental Engineering programs within our Faculty allow students to develop themselves according to their interests and abilities, while also enabling them to access a wide range of career opportunities in critical fields such as construction, infrastructure, water and environmental management, sustainability, energy efficiency, and climate change.

With programs offered in both Turkish and English, our Faculty prepares students for the national and international labor markets, enhancing their employment prospects in engineering companies, public institutions, research centers, and international organizations.

Strong communication mechanisms have been established between students and the academic and administrative staff of our Faculty, providing you with the opportunity to share any suggestions, needs, or expectations related to your educational process directly with your advisors and the department administration.

In addition, through technical trips, fieldwork, laboratory practices, and student club activities, you can develop not only academically but also socially and professionally. Our Faculty aims to train the engineers of the future by supporting the innovative, entrepreneurial, and leadership skills of our students.

Moreover, the modern laboratory infrastructure of Near East University, its up-to-date software and equipment, combined with the cultural diversity of Cyprus and a peaceful campus life, offer you both personal development and an efficient learning environment.

DEPARTMENT OF ENVIRONMENTAL ENGINEERING

Head of Department's Message

Dear Student,

In recent years, due to increasing industrial activities and rapid population growth, the air, water, and soil—which are vital resources for human life—have been rapidly polluted. The detection of these pollutants, the implementation of necessary preventive measures, and the elimination of existing pollution are becoming increasingly important in the field of environmental engineering with each passing day.

At Near East University, students admitted to the Department of Environmental Engineering undergo a five-year education program, including a preparatory year. With its dynamic structure, our department continuously follows and applies new technologies in the field. It was established in the 2018–2019 academic year with the aim of training environmental engineers that our country needs and providing the qualified workforce required for the sector. The department strives to propose solutions to globally increasing environmental problems (such as pollution, depletion of resources, etc.), create sustainable natural resources, and enhance societal welfare.

The mission of our department is to maintain educational activities with a vision of continuous improvement; to conduct original research in the field of environmental engineering; to serve society with knowledge and experience on environmental issues; and to train engineers equipped with all necessary knowledge and skills in their discipline, committed to ethical values, possessing self-development potential, inclined toward teamwork, and capable of assuming leadership in their field. In addition, conducting original research on problems that may arise in our country and publishing these studies in national and international journals are among our objectives.

Prof. Dr. Fidan Aslanova

Degree Awarded

Students who successfully complete the program are awarded the International Environmental Engineering Bachelor's Degree (BSc).

Admission Requirements

Admission to this undergraduate program is conducted through the university entrance examination called YKS, in accordance with the regulations set by the Council of Higher Education of Türkiye (YÖK). After students submit their

academic program preferences, the Student Selection and Placement Center (ÖSYM) places students into the relevant program based on the scores they obtained in ÖSYS.

International students are admitted to this undergraduate program based on their scores from one of the international examinations such as SAT or ACT, or based on their high school diploma grades.

Exchange student admissions are carried out according to the conditions specified in bilateral agreements signed between Near East University (NEU) and partner universities.

Visiting students may register for courses offered in this program with the approval of the relevant academic unit. Additionally, since the language of instruction at NEU is English, they are required to provide proof of their English proficiency.

Graduation Requirements and Regulations

In order to graduate from this undergraduate program, students must have a Cumulative Grade Point Average (CGPA) of at least 2.00 out of 4.00 and must have successfully completed all courses in the program with a minimum grade of DD/S. The minimum ECTS credit requirement for graduation is 240.

Recognition of Prior Learning

Full-time students at Near East University may be granted exemption from certain courses in accordance with the relevant regulations. If the content of a course previously taken at another higher education institution is equivalent to a course offered at NEU, the student may be exempted from that course upon evaluation of the course content and with the approval of the relevant faculty or institute.

Program Details

The primary aim of the Environmental Engineering Program is to educate individuals who are equipped with engineering knowledge and capable of providing innovative and sustainable solutions to meet the infrastructure and superstructure needs of societies. The program aims to provide students not only with theoretical knowledge but also with practical, application-oriented skills.

The educational process is supported by English-taught courses, ensuring that students gain proficiency in international communication and professional terminology; this prepares them to become qualified graduates capable of participating effectively in engineering projects on a global scale. The courses offered within the program are designed to train innovative engineers who follow current technological developments and are proficient in computer-aided design and analysis tools.

Furthermore, one of the program's primary objectives is to develop students' analytical thinking, problem-solving, creative design, and leadership skills, while fostering engineers who are environmentally conscious, ethically responsible, and able to contribute positively to society.

Program Learning Outcomes

1. **Engineering Knowledge:** Knowledge of mathematics, natural sciences, environmental sciences, basic engineering, computer-based computation, and discipline-specific environmental engineering topics; ability to apply this knowledge in solving complex environmental problems.

2. **Problem Analysis:** Ability to identify, formulate, and analyse complex environmental engineering problems (air, water, soil, waste, energy, climate change) using knowledge of basic sciences, mathematics, and engineering, while considering the UN Sustainable Development Goals relevant to the problem at hand.
3. **Engineering Design:** Ability to design creative and sustainable solutions for complex environmental problems; ability to design systems, processes, technologies, or products by taking into account realistic constraints and conditions (economic, social, environmental, legal, and ethical) to meet present and future requirements.
4. **Use of Techniques and Tools:** Ability to select and use appropriate laboratory techniques, field methods, modelling, simulation, monitoring technologies, and IT tools for the analysis and solution of complex environmental problems, with an awareness of their limitations.
5. **Research and Investigation:** Ability to conduct scientific research using methods such as literature review, experimental design, environmental sampling, monitoring, data collection, analysis, and interpretation of results for the investigation of complex environmental problems.
6. **Global and Societal Impact of Environmental Engineering Applications:** Knowledge of the global and local impacts of environmental engineering applications, within the scope of the UN Sustainable Development Goals, on public health, ecosystems, economy, sustainability, and climate change; awareness of the legal, regulatory, and societal consequences of environmental engineering solutions.
7. **Ethical and Professional Responsibility:** Acting in accordance with professional and ethical principles of environmental engineering; knowledge of environmental laws, codes of practice, and regulations; awareness of impartiality, non-discrimination, inclusiveness, and sustainability ethics.
8. **Individual and Teamwork:** Ability to work effectively as an individual, and as a member or leader of intra-disciplinary and multidisciplinary teams (face-to-face, remote, or hybrid) in solving environmental engineering problems.
9. **Oral and Written Communication:** Ability to communicate effectively on technical and environmental issues, both orally and in writing, with different audiences (such as engineers, policymakers, stakeholders, and the public), by considering education, language, and professional background.
10. **Project and Environmental Management:** Knowledge of project management, environmental impact assessment, risk management, and life-cycle analysis; awareness of entrepreneurship, innovation, and the principles of the circular economy.
11. **Lifelong Learning:** Ability for independent and continuous learning, adapting to new and emerging environmental technologies and regulations, and engaging in critical thinking regarding sustainable development and technological changes.

Program Structure

The Environmental Engineering undergraduate program consists of a total of 53 courses, equivalent to 240 ECTS credits. Excluding core compulsory courses and elective courses, there are at least 5 courses offered each semester. Every program includes common compulsory courses determined by the Council of Higher Education of Türkiye (YÖK) and other common courses specified by the University Senate. From the third year onwards, elective courses are offered each semester. Each undergraduate program includes at least 14 elective courses.

The four-year program and the list of elective courses are presented below:

Department of Environmental Engineering 4-year Course Program

1 st Semester							2 nd Semester

Additional Information

To graduate, students are required to complete courses totaling 240 ECTS credits. Students must complete the compulsory courses and technical elective courses to fulfill the total of 240 ECTS credits. Otherwise, they will not be considered to have met the graduation requirements of the program.

In our programs, a 70% attendance requirement is applied for all courses. Students who fail to meet the attendance requirement within the specified rules are given an NA (Never Attended) grade for the relevant course. The NA grade is assigned to students who do not fulfill the attendance conditions and lose the right to participate in end-of-term evaluations. The NA grade is not included in the calculation of the grade point average. In the following semester, the student must again meet the 70% attendance requirement for the same course. The 70% attendance requirement does not apply when repeating courses in which the student received an FF grade.

Important Notes on Elective Courses

Students enrolled in the International Law program are required to complete at least 14 elective courses to graduate. These courses must be selected from the approved list of electives provided within the program. Courses that are not included in this list will not be recognized as electives. The ECTS credit value of each elective course must be equal to or greater than the credit values specified in the curriculum.

Exam Regulations, Evaluation and Grading

At our university, student performance is generally assessed through in-person examinations, including a midterm exam and a final exam. However, in some courses, alternative assessment methods—such as project assignments, presentations, homework, quizzes, and group work—are also employed to encourage active participation and evaluate a range of skills.

The method of assessment for each course may vary depending on the nature of the course and the instructor's approach. Assessment criteria are communicated to students at the beginning of the semester and are clearly outlined in the course syllabus.

The final course grade is calculated based on the weighted average of all evaluations conducted throughout the term, including exams, assignments, and any additional components. Therefore, students are expected to actively engage not only in exams but in all forms of assessment during the semester. At Near East University, students receive one of the letter grades described below for each course, based on the assessment conducted by the course instructor. Each letter grade corresponds to a specific ECTS credit weight.

NOT	HARF NOTU	KATSAYI	AKTS NOTU
90-100	AA	4.0	A
85-89	BA	3.5	B*
80-84	BB	3.0	B*
75-79	CB	2.5	C*
70-74	CC	2.0	C*
60-69	DC	1.5	D
50-59	DD	1.0	E
49-00	FF	0.0	F

To be considered successful in a course: Students in **Level 5 (Associate)** and **Level 6 (Bachelor's)** programs must receive at least a **DD.**, Students in **Level 7 (Master's)** programs must obtain at least a **CC.**, Students in **Level 8 (Doctoral)** programs must earn at least a **BB.** For non-credit courses not included in GPA calculations, students must receive an **S (Satisfactory)** grade.

In addition to local letter grades, each grade has an **ECTS equivalent**, which facilitates student mobility between institutions. The grading table above is used for all courses offered by Near East University.

Besides standard letter grades, the following special grades may also appear on student transcripts:

Grade Meaning

I	Incomplete
S	Satisfactory
U	Unsatisfactory
P	Successful Progress
NP	Not Successful Progress

Grade Meaning

EX	Exempt
NI	Not Included
W	Withdrawal
NA	Never Attended

I (Incomplete): Assigned to students who fail to complete course requirements due to a valid reason approved by the instructor. Students must fulfil all outstanding obligations within one week after the official grade submission deadline. In exceptional cases, the deadline may be extended up to two weeks before the start of the next semester by the relevant academic board. Failure to meet the requirements within the given timeframe results in an automatic **FF** or **U** grade.

S (Satisfactory): Given to students who successfully complete non-credit courses.

U (Unsatisfactory): Given to students who fail non-credit courses.

P (Successful Progress): Assigned to students in courses with multi-semester requirements, where GPA is not calculated, and progress during the term is deemed satisfactory.

NP (Not Successful Progress): Assigned when expected progress is not achieved in multi-term courses that do not count toward GPA.

EX (Exempt): Given to students exempt from a specific course in the curriculum.

NI (Not Included): Indicates a course that is listed on the transcript but not included in the GPA calculation or official program requirements.

W (Withdrawal): Assigned when a student withdraws from a course between the 3rd and 10th week of the semester with approval from both their academic advisor and course instructor. Withdrawals are not allowed during the first two semesters. A student may withdraw from a maximum of **two courses** in associate programs and **four courses** in bachelor's programs. Courses with a prior **W** grade that did not affect the GPA cannot be withdrawn from again. The student must retake the course in the first term it is offered again.

NA (Never Attended): Given to students who fail to meet the minimum attendance requirement and lose the right to participate in final assessments. This grade is not included in the GPA.

On all student transcripts, both national letter grades and their corresponding ECTS equivalents are shown.

Graduation Requirements

To graduate from this undergraduate program, students must meet the following requirements;

Successfully complete all courses in the curriculum with at least 240 ECTS credits and a minimum grade of DD/S and have a Cumulative Grade Point Average (CGPA) of at least 2.00 out of 4.00.

Academic Calendar 2025-2026

	FALL TERM
July 01, 2025; Tuesday	Intern Rotations Commence for Year 6: Faculty of Medicine
September 08, 2025; Monday	Last Day for the 1st Payment of the Fees (Full Payments and 1st Instalment)
September 08, 2025; Monday	Classes Commence for Years 2, 3, 4 and 5: Faculty of Medicine
September 08-12, 2025; Monday-Friday	Courses to be assigned to the Academic Staff
September 11-15, 2025; Thursday Monday	Activation of the Courses
September 08, 2025; Monday	Classes Commence for Years 1 and 2: Faculty of Medicine
September 15, 2025; Monday	English, Arabic and Turkish Proficiency Exams for Undergraduate Students
September 15-19, 2025; Monday-Friday	Course Registration
September 18, 2025; Thursday	English Language Proficiency Exam for Postgraduate Students
September 19, 2025; Friday	Last Day for Postgraduate thesis juries
September 22, 2025; Monday	Classes Commence (including the Preparatory Schools)
September 30, 2025; Tuesday	Exemption Exam for Common Courses (Courses in English)
October 02, 2025; Thursday	Exemption Exam for Common Courses (Courses in Turkish)

	FALL TERM
October 08, 2025; Wednesday	Last Day for the Payment of the 2nd Instalment of the Fees (for 8 Instalments)
October 08, 2025; Wednesday	Last Day for Changing the “I” (Incomplete) Grades for the Previous Term
October 10, 2025; Friday	Last Day for International Students to Withdraw

Registration and Admission Procedures

International Student Affairs is in the Faculty of Communication building and is open from Monday to Friday, between 08:00 and 17:00. Students can obtain information about faculties, complete registration procedures, and request documents such as exam entrance certificates, student certificates, and transcripts from the International Student Affairs Office.

Course Registration

Course registration is conducted online each semester. After completing the semester tuition payment, students can register for their courses via the online system at <http://ogrsis.neu.edu.tr>.

To access this system, each student is provided with a student ID number and a personal password by the faculty secretary. After selecting their courses through the system, students must also obtain approval from their academic advisors via the same platform.

The registration process is also outlined on the university's official website. However, students who have not paid their tuition fees or submitted their payment receipts to the Student Affairs Office will not be able to proceed with online registration. Final approval of course registration is completed by the academic advisors of the department.

Additionally, students may complete course registration by meeting in person with their academic advisors within their departments. During the registration period, as indicated in the academic calendar, students are expected to consult with their advisors for course selection and academic guidance.

Add/Drop and Withdrawal

Each semester, specific Add/Drop and Course Withdrawal dates are determined and announced in the academic calendar. During this period, students can attend their registered courses and, if they wish, make changes by adding or dropping courses. All course withdrawal, course change, or course addition procedures must be completed within the dates specified in the academic calendar. Students must consult with their academic advisors to carry out the requested changes.

Lateral and Vertical Transfers

Students who wish to apply for a lateral or vertical transfer must apply to the Student Affairs Office. After the application is approved, the student must provide an official transcript from their previous university to the department they have been admitted to. Before the student begins their education, the Department Head/Dean and the assigned academic advisor will evaluate whether the courses previously taken are equivalent to the courses in the current program.

For students who are citizens of the Republic of Türkiye, the rules regarding transfers to Near East University can be reviewed at the following links in accordance with the Council of Higher Education (YÖK) and university regulations:

<http://www.yok.gov.tr/4767>

<https://neu.edu.tr/wp-content/uploads/2023/05/29/YDU-Yatay-Gecis-Yonetmeligi-29.05.2023.pdf>

Communication with Academic Staff

Subject	Description
Course Materials and Content	All course materials, weekly content, and announcements are shared via the UZE BIM platform: https://uzebim.neu.edu.tr/
Email Communication	You can contact academic staff through their institutional email addresses .
Face-to-Face Meetings	You can meet with academic staff during their office hours , which are posted on their office doors in the faculty building.
Academic Staff Information	CVs and contact information of academic staff are available at: https://insaatecevre.neu.edu.tr/people/academic-staff/?lang=en

Class Attendance and Excused Absences

Students are required to attend at least 70% of the total course hours for each course. If a student is unable to attend an exam, they must submit their medical report (issued by Near East University Hospital or a state hospital) within 3 working days following the exam date. Otherwise, the student will lose the right to take the make-up exam.

Students are responsible for following the make-up exam schedule through the university's announcements page or the instructor's personal page. If a student misses a previously announced make-up exam without valid excuse, they will lose the right to take that exam.

International Student Office

Near East University International Student Office provides support and counselling in the educational and social lives of foreign students studying at our university, from registration to graduation. International Student office ensure that international students who study at our university return to their countries fully equipped with good memories and that more students from these countries apply to our university.

International Student Office Working Hours:

Monday to Friday 08:00 – 17:00.

Closed on official holidays.

International Student Office Contact Information:

Director of International Student Office: Asst. Prof. Dr. Rana Serdaroglu

Phone: 0392 223 6464

E-Mail: rana.serdaroglu@neu.edu.tr

Campus Life

Library

Located directly across from the Faculty of Economics and Administrative Sciences building, the Grand Library features over 1,000,000 open-shelf books, 150 million electronic journals, 7,000 DVDs, 17 film viewing booths, 12 individual and group study rooms, 4 lecture halls with 1,000 seats, a theatre hall with a capacity of 350, a cafeteria for 600, and 600 study desks. This makes it a world-class cultural and information-access centre. The library is open 24/7 and is free of charge. The information centre, equipped with the latest digital technologies, is accessible from anywhere via the internet. Students can also access information throughout the campus via wireless internet.

Social Activities and Student Clubs

Students can participate in various activities throughout their studies, including university-sponsored conferences and club activities that encourage social engagement. Some active clubs include the Law Club, Nature and Sports Club, Scientific Research and Health Club, Theatre Club, Photography Club, and Tango Club. For more information, visit:

<https://neu.edu.tr/kampusteyasam/sosyal-ve-kulturel-kulupler/>

The campus also features the country's first and only Olympic Indoor Swimming Pool, covering 2,700 m², with a height of 16 meters, dimensions of 50 x 21 meters, 3,100 tons of water capacity, central heating, 1,000 spectator seats, and diving towers at 3, 5, 7, and 10 meters. Swimming courses are offered in both summer and winter.

<https://neu.edu.tr/kampusteyasam/olimpik-kapali-yuzme-havuzu/>

Psychological Counselling Services

Since 1995, the university has offered free psychological counselling. The Counselling Centre is located on the first floor of the Faculty of Law building. It operates by appointment and is open weekdays from 09:00–13:00 / 14:00–16:00.

Office of the Dean of Students

This office aims to provide an integrated university life where students and alumni feel supported in all aspects of their personal, cultural, social, and professional development. The Dean of Students offers various services and programs to support academic and personal growth, instilling a sense of confidence in students as they prepare for life beyond graduation.

Units under the Dean of Students include Student Counselling and Communication Unit, Psychological Counselling Unit, Student Activities Unit, NEU ideas Unit, Career Planning Unit, Social Responsibility Projects Unit, Students with Disabilities Unit, Alumni Affairs Unit. If you require support in accessing courses due to a disability, please contact the Accessible Support Unit: engelsiz@neu.edu.tr

Student Counselling and Communication Unit

In cases where students face unexpected or uncontrollable circumstances that affect their academic responsibilities, they can submit petitions through the online system or via email for issues such as refunds, academic matters, job applications, accommodation, or financial concerns: petitions@neu.edu.tr

Sports Facilities

The university offers a wide range of modern sports facilities to promote a healthy lifestyle among students, staff, and faculty. Facilities include an Olympic swimming pool, tennis courts, football fields, gymnastics halls, and both indoor and outdoor sports complexes.

Our Olympic Indoor Swimming Pool has a 1,000-seat capacity, modern amenities, and a café. Activities such as water polo, diving, and synchronized swimming, as well as swimming lessons, are regularly held. The Sports Tower is a high-tech fitness centre for all age groups, offering classes and sessions in: Fitness, Step, Aerobics, Spinning, TRX, Kangoo Jumps, Pilates, Yoga, Boxing, Karate, Dance education, Nutrition & diet services, with special sections for children and women. RA25 Sports Hall hosts competitions in basketball, handball, volleyball, and badminton, and functions as a venue for ceremonies and concerts with its advanced sound system.

<https://neu.edu.tr/kampuste-yasam/spor/>

<https://neu.edu.tr/wp-content/uploads/2018/12/21/spor-kule-brosur-21.12.18.pdf>

Atatürk Culture and Congress Centre (AKKM)

This state-of-the-art venue hosts national and international congresses, seminars, conferences, and cultural events. It features various-sized meeting halls, modern audiovisual equipment, and spaces for art exhibitions, concerts, theatre performances, and more — enhancing campus life through arts and culture.

<https://neu.edu.tr/kampuste-yasam/ataturk-kultur-ve-kongre-merkezi/>

Restaurants and Cafeterias

The campus features a wide range of food and beverage outlets, including the Main Cafeteria, Faculty Cafeteria, Hospital Cafeteria, and others with a total service capacity of 4,500 people. Across campus, there are 22 cafes and restaurants offering healthy, affordable meals, with options for vegetarians and vegans.

Some of the dining facilities include:

Cafe Hastane 1 & 2, Cafe Bigla, Cafe Dental, Cafe Ecza, Cafe Saray, Chicken House, Cafe Library, Cafe Bridge, Cafe Veterinerlik, Gusto Cafe, Cafe Sağlık, Vitamin Cafe, Cafe 535, Cafe AKKM, Book Cafe, Cafe Laundry, Hospital Restaurant, Kebap House, Pizza Pizza, The Kaffo, Bakery & Patisserie, and the 9th Floor Restaurant.

For more information:

<https://neu.edu.tr/kampuste-yasam/kantin-ve-kafeteryalar/>

Market & Supermarket

IKAS Supermarket

Located on our campus, IKAS Supermarket serves campus residents with a wide range of products and extended working hours to meet all their daily needs. Additionally, there is a branch of IKAS Supermarket located under Dormitory Building 1, designed to serve students' essential needs.

Working Hours:

Weekdays/Weekends: 07:30 – 22:00

IKAS Supermarket Express

IKAS Supermarket Express, located within the Near East Campus at Near East Fuel Station, is open 24/7. Discounts available to Near East Group employees are also valid at this location.

NEU Event Park Drift Area

For those seeking speed, control, and excitement, NEU Event Park Drift Area offers an unforgettable driving experience. Under the supervision of two expert instructors, you will not only learn how to drift, but also improve your safe and effective driving techniques. Tire and fuel costs are included in the training packages. Each session lasts 30 minutes.

NEU Event Park offers 4 different training packages, tailored to various expectations. There is even a special course for young car enthusiasts: children aged 6–12 can participate in a manual driving course designed especially for them. For international visitors, accelerated 3-lesson programs are available to help them quickly learn the basics of drifting. Upon successful completion of the training program, a certificate of participation is awarded to all participants (excluding tourist guests and children's courses). The drift area can also host special events such as birthday parties and concerts.

Working Hours:

- Weekdays: 16:00 – 21:00
- Weekends: 09:00 – 21:00 Flexible closing hours are available for special events or upon request.

For detailed information about packages and pricing: Phone: +90 548 821 21 24

Accessible Cinema Hall

The newly renovated “Accessible Cinema” Hall at the Faculty of Communication, Near East University, offers a modern and inclusive experience for cinema enthusiasts and event participants. Originally launched in 1997 with the support of Telsim, the hall has recently undergone a comprehensive renovation and is now more equipped and comfortable than ever.

The Accessible Cinema features 40 fixed seats, with a flexible setup that can accommodate up to 60 people when needed. It is equipped with a state-of-the-art projection system compatible with all types of computers and has a powerful sound system to ensure an enhanced audio experience.

One of the hall’s most significant features is its fully accessible ramp, which provides seamless access from the outside entrance to the seating area, allowing individuals with disabilities to enjoy events without barriers. In addition to film screenings, the Accessible Cinema is also physically suited for mini workshops and various events.

IKAS Patisserie & Bakery

One of the most popular spots on the Near East University campus, IKAS Patisserie & Bakery welcomes guests with a delightful atmosphere and a wide variety of delicious offerings. The venue has a total seating capacity of 40 people, including 20 indoor and 20 outdoor seats, allowing visitors to enjoy their time both inside and in the open air. In addition to meeting the university’s in-house needs for cakes, pastries, savoury snacks, desserts, and ice cream, IKAS Patisserie & Bakery also serves fresh and tasty products to external guests. Soon, it plans to expand its kitchen and begin producing its own bread. For those focused on healthy living, specially made diet desserts and drinks designed for pre- and post-workout consumption will also be available.

With an extensive menu of hot and cold beverages, the patisserie caters to all tastes and also takes custom orders for birthday cakes and special celebrations. The outdoor garden area has been designed to offer enjoyment all year round — cool shaded areas in summer, and warm cozy spots with stoves in winter. Parking is available for guests, and the venue especially welcomes those seeking a peaceful breakfast experience on weekends. On Saturdays and Sundays, rich classic and English breakfast options are served until noon — a perfect way to start your day!

Opening Hours: Weekdays / Weekends: 07:00 – 01:00

Photocopy Services

Near East University offers photocopying and printing services at various locations across campus for students and staff. These service centres aim to provide fast and reliable solutions for educational and academic needs. Photocopy centres are available in faculties with high printing demands, such as the Faculty of Architecture, Faculty of Medicine,

and Faculty of Education. These centres offer specialized printing services, including large-format AutoCAD printouts for architecture students. Additionally, thesis binding services are available for students preparing their theses. Along with basic services like photocopying and printing, document scanning and various binding options are also provided. A stationery shop within the Near East University Library offers services such as photocopying and thesis binding.

Bank & ATM

On campus, you will find branches of Near East Bank and Türkiye İş Bankası, as well as an ATM for Ziraat Bankası. These banking services are conveniently located to ensure that both students and staff can easily carry out their financial transactions.

Post Office

The Post Office at Near East University provides postal services to all students and staff. It is located on campus for easy access to both send and receive mail.

Location: Ground Floor, Faculty of Economics and Administrative Sciences

Near East Fuel Station

The on-campus fuel station provides university staff with a fast and convenient way to meet their fuel needs. In addition, all Near East University employees can benefit from discounted fuel services by using the Near East Fuel Discount Card. For more information about Near East Fuel Station, please visit the official website: <https://yakindoguakaryakit.com/>

Useful Phone Numbers

For more details about telephone contacts at Near East University and to find the phone numbers for specific departments or services, please visit the university's official website: <https://neu.edu.tr/telefon-rehberi/>

Campus Traffic Rules and Safety

Near East University's campus is subject to specific traffic rules to ensure the **safety and comfort** of students, staff, and visitors. These rules are **monitored 24/7** by NEU personnel, and **penalties may be applied** in case of violations. A full understanding and application of these rules contribute to creating a safer and more orderly campus environment.

Traffic Flow and Right of Way: Traffic on the NEU campus flows in the left lane. Therefore, drivers must keep left and follow the right-of-way rules to ensure smooth traffic movement.

Pedestrian and Bicycle Priority Campus: Please give priority to pedestrians and cyclists in crosswalks and designated bike lanes. Slow down and proceed with caution in these areas to ensure safety.

Speed Limit: The maximum speed limit on campus is 40 km/h. Adhering to this limit significantly reduces the risk of accidents and enhances overall safety.

Horn and Loud Music: Using car horns and playing loud music is prohibited on campus. Following this rule helps maintain a peaceful environment for everyone.

Traffic Signs and Directions: Traffic signs and directional markers are placed throughout the campus to support safe and orderly traffic flow. Please always follow these signs.

Routes and Parking Areas: Use designated driving routes and park only in designated areas in accordance with the campus parking regulations. This ensures safety and avoids traffic disruption.

Monitoring and Security: Traffic rules are regularly monitored by security personnel. Please follow their instructions and do not hesitate to ask for help if needed. Adhering to safety measures ensures a smooth and respectful traffic environment for all. By respecting these rules, we can collectively contribute to a safer and more peaceful campus.

Transportation Services

Near East University provides its staff with comfortable and free transportation options, ensuring easy access to both the campus and surrounding areas. The university's transportation services cover routes that are scheduled according to class and work hours. Free university buses departing from the campus and heading to various regions and the city centre offer a wide transportation network. This service aims to reduce vehicle usage and promote environmentally friendly shared transport. Free transportation services are a significant support in facilitating the daily lives of staff.

Campus–Nicosia and Nicosia–Campus Routes: Shuttle services between the campus and Nicosia operate from 06:45 AM to 10:15 PM. These reciprocal services allow our staff to travel comfortably and safely between the campus and Nicosia. The routes cover a wide area. Detailed information about transportation services and routes is available on the university's website: <https://bus.neu.edu.tr/>

Intercity Free Shuttle Services: Near East University offers free shuttle services for staff commuting from regions such as Kyrenia (Girne), Famagusta (Mağusa), and Güzelyurt. These services are organized to ensure staff can reach the campus comfortably.

In-Campus Shuttles: Within the campus, there is a free shuttle service between the residential area and faculties or other administrative units. These shuttles facilitate quick and easy access across campus.

Walking Distance Accessibility: The Near East University campus is designed to allow safe walking access to most places. Classrooms, the library, the dining hall, and other key facilities are located within short walking distances. The campus design promotes physical activity and minimizes the need for motor vehicles. Additionally, the university provides alternative eco-friendly transport options such as bicycles and electric scooters for staff use.

By offering these transportation options, Near East University enables its staff to easily access campus events and resources. It supports its personnel in maintaining a productive work-life balance through a safe and extensive transportation network across its large campus area.

Environmental Engineering Department | Student Information Handbook
2025–2026 Academic Year

Who ARE YOU? WHERE ARE YOU?

- Faculty Established Year: 1988
- Department Established: 2018
- Aim: To be an internationally recognized and accredited faculty
- Programs: 3 bachelor, 3 masters', 1 PhD
- Education Language: Turkish and English
- Student Number: +500

ENVIRONMENTAL ENGINEERING DEPARTMENT

- Head of Department: Prof. Dr. Fidan Aslanova
- Contact: fidan.aslanova@neu.edu.tr
- Degree Awarded: International Bachelor of Science in Environmental Engineering (BSc)
- Total Credit: 240 ECTS
- Elective Courses: At least 14 elective courses

GRADUATION REQUIREMENTS

- To complete all courses with at least a DD/S letter grade
- Cumulative Grade Point Average (CGPA): At least 2.00 / 4.00
- 70% class attendance requirement
- 14 elective course must be taken

REGISTRATION & ADMISSION PROCEDURES

1. Pay the tuition fee
2. Register for courses via ogrsis.neu.edu.tr
3. Get advisor approval
4. If necessary, make changes during the "add/drop" week

CONTACT
